SPECIALIZED SOR ITEM CORRIGENDUM ORDER - 1

No. 65011/802/SOR/

Nawa Raipur, Atal Nagar Dated 10/10/2026

The following corrigendum are hereby issued in the items mentioned below in Specialized S.O.R. item for Building Works (in effect from 10-08-2026)

Chapter/Name /S.No.	Printed as	Read as
Swimming Pool / 3	Providing of Safety polyethylene outer swim Lifebuoys ring dia 600 mm	Providing and supplying safety swim lifebuoy ring of approximately 600 mm outside diameter, manufactured from high-density polyethylene (HDPE) or UV-stabilized polyethylene, suitable for swimming pools and outdoor aquatic facilities. The lifebuoy shall be closed-cell, inherently buoyant and water-resistant, with sufficient buoyancy to remain afloat and support a person in distress. The ring shall have a smooth, impact-resistant and corrosion-free outer surface, resistant to chlorinated water, UV exposure and normal outdoor weather conditions. The lifebuoy shall be high-visibility safety colour, preferably white/orange or as approved, with suitable retro-reflective/safety markings where required. It shall be provided with a continuous perimeter grab/lifeline rope, securely fixed through integral rope recesses or equivalent arrangement, allowing easy gripping and deployment. The rope shall be UV-resistant, rot-proof and suitable for aquatic use. The lifebuoy shall be of robust construction, free from sharp edges, cracks, deformation or manufacturing defects and shall maintain its buoyancy and shape during prolonged use. It shall be suitable for mounting on a lifebuoy wall bracket/stand at designated locations around the pool deck. The complete lifebuoy shall comply with the applicable requirements of EN 14144:2003, Lifebuoys, or equivalent internationally recognized safety standard, wherever applicable. For detailed dimensions, buoyancy performance, material grade, rope specification, markings and mounting arrangement, refer to the approved Detailed Design Drawings and Detailed Technical Specifications issued as Annexure. Complete including 600 mm dia. polyethylene lifebuoy, grab rope, safety markings, mounting accessories and all necessary fittings, complete as directed by the Engineer-in-Charge.

Swimming Pool / 4	Providing Lifeguard Loop, life saving hooks made of AISI-304 stainless steel to be used with telescopic handles.	Providing and supplying lifeguard rescue loop/life-saving hook assembly, fabricated from AISI 304 stainless steel, suitable for swimming-pool rescue operations and compatible with standard telescopic rescue poles. The hook/loop shall be corrosion-resistant, smooth-finished and suitable for continuous exposure to chlorinated pool water and outdoor conditions. The rescue head shall have a secure connection/socket for attachment to a compatible telescopic handle, with adequate mechanical strength to withstand normal rescue pulling and guiding loads without deformation or detachment. All exposed edges and surfaces shall be smooth and free from sharp projections to prevent injury during rescue operations. The assembly shall be lightweight, durable, non-corrosive and suitable for repeated lifeguard use, complete with suitable locking/pin arrangement for secure attachment to the telescopic pole. For detailed dimensions, stainless-steel material grade, section thickness, connection arrangement, load capacity and compatibility with the specified telescopic handle, refer to the approved Detailed Design Drawings and Detailed Technical Specifications issued as Annexure. Complete including AISI 304 stainless-steel rescue loop/hook, pole connection fitting, locking arrangement and all necessary accessories, complete as directed by the Engineer-in-Charge
---------------------------------	---	--

All above corrigendum shall be applicable with immediate effect.
